Subject: VBI-70 Overview
Attachments: Site 2.png
Location: Steve or Aaron's office
Start: 8/6/2019 4:00:00 PM
End: 8/6/2019 5:00:00 PM
Show Time As: Busy

Below is breakdown of where we are today. It may change a little bit but the time we meet. I'll update you then. Meanwhile, you have access to my OneDrive files. I added instructions below to help you access the files. I attached the site diagram showing the OU and the site FAQ.

If you think the information below is enough for what you need, let me know and I'll cancel the meeting.

OU1

Deletion

I prepared the responsiveness summary. It is currently in review. I still need to discuss some of the data with Wendy Obrien although I do not expect that it will change much. The target is to finalize it this FY.

Five Year Review

Skeo and I went over the draft. I told Skeo to wait while I review how the notifications to the property file are working. I talked to the Denver Office of the Clerk and Recorder about properties that changed hands. The person told me that the indexing is by name not by property. Unless a person searches for the name, the notice will not be found. I'll meet with Mark Chalfant about this and the impact it may have on the remedy.

Notices of environmental condition

There is currently one withdrawal notice that we have to file. As we were the ones that submitted the notices, it will be our responsibility to submit the withdrawal. Not counting this one, there are 52 notices that will need a withdrawal notice in the future.

OU2

Removal

Denver submitted the draft completion report. Once we get the go ahead from legal, I can ask Denver to finalize the report. We will then close the order.

Remedial

I asked Denver to collect additional information to update the 2009 RI. We are currently discussing the scope of work. I have the draft letter for review. Mark already gave me his comments.

OU3

The RI report was completed in 2018. I'm drafting the contract paperwork to get contractor support for the FS, proposed plan and ROD.

CAG

The last request from the CAG was to be at the scoping meeting and to review the scoping tech memo. I told them that they can't be at the scoping meetings. They will receive the final draft scope tech memo for review.

Accessing OneDrive

On the R8 home page click the central square, the one that looks like a tall building.

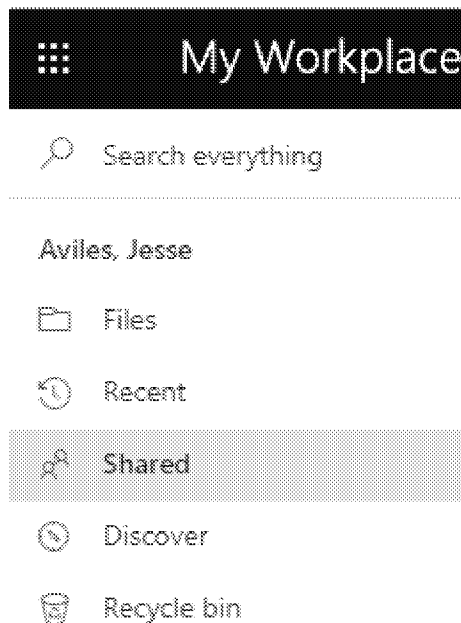

Click the top left corner, the nine squares arranged in a square pattern and select OneDrive.

Welcome to My Workplace.

EPA's collaboration platform is powered by Microsoft Office 365.

On the left, click on Shared.

Then click on Search Everything and paste the following: VBI70 (CO0002259588). Click on the folder that will show up and navigate to OU1 – Deletion – Comments to open the comments. The spreadsheet will help you to find the comments and open them. You can also browse the OU1 folder to read the documents I refer to.
